**DUNS:** 786988902

**Cage:** 4LGB2

**Other:**

- SDVOSB under \$7M
- DCAA approved accounting system

## 2.0 Offered Services

CEI was originally established in 2006 to conduct Chemical, Biological, Radiological, Nuclear, and High-Yield Explosive (CBRNE) emergency response operations and provide Explosive Ordnance Disposal (EOD) subject matter expertise to the US Department of Defense. Since then CEI has transitioned its core offerings delivering a variety of best value, high quality support services to the Private Sector and US Federal Government. CEI has a culture of customer service, process, quality, risk management, and continuous improvement that is derived in part from our past experiences working in high stake and high risk military environments.

### Professional Services Offered

#### INTELLIGENCE SUPPORT

- Policy and Procedures Development
- Forensics and Biometrics
- CBRNE Collection, Processing, Exploitation and Analysis
- Joint and Inter-Agency Data Analysis
- Weapons Technical Intelligence

#### INFORMATION TECHNOLOGY

- IT Asset Management
- Network Support
- Systems Support
- Database Development and Administration
- Application Development and Administration

#### TRAINING

- Training Delivery
- Exercise Support
- Curriculum Development
- Training Aid Fabrication
- CBRNE, C-IED, WMD, and EOD Training Support
- Personnel Training Management

#### LOGISTICS SUPPORT

- Integrated Logistics Support
- Contractor Logistics support
- Force Modernization
- Warehouse Operations
- Supply Operations
- CBRNE, EOD, and WMD Operations

#### FACILITY MANAGEMENT AND MAINTENANCE

- SCIF Requirements, Accreditation, and Construction
- Construction Management
- Critical Infrastructure
- MILCON and SRM Requirements Development
- Space Management
- CAD/Drafting

#### RESEARCH, TEST, AND DEVELOPMENT SUPPORT

- Energetic Testing
- Radiography

#### ENVIRONMENTAL REMEDIATION

- UXO Clearance
- HTRW

**CURRENT CUSTOMERS:** Booz, Allen, Hamilton; PAE; Camber Corporation; Integral Consulting Services, Inc.; US Army; US Navy; US Marine Corps; Department of State

**NAICS CODES:** 541330, 541340, 541380, 541611, 541618, 541620, 541690, 541990, 561210, 562112, 562910, 611430, 611699, 611710, 811219

**3.0 Labor Category Descriptions**

Labor Categories	Descriptions
Project Manager	<p><b>Education:</b> B.S. or B.A. Degree.</p> <p><b>Experience:</b> At least 8 years of direct supervision of technical personnel involved in engineering and/or technical efforts in support of complex systems or processes. Must be capable of leading projects that involve the successful management of teams composed of engineers, scientists, and management and technical professionals who have been involved in analyzing, designing, developing, integrating, training, testing, documenting, implementing, and maintaining complex systems.</p> <p><b>Duties:</b> Performs day-to-day management of overall contract support operations, possibly involving multiple projects and groups of personnel at multiple locations. Organizes, directs, and coordinates planning and production of all contract support activities. Demonstrates written and oral communication skills. Establishes and alters (as necessary) corporate management structure to direct effective contract support activities.</p>
Functional Expert Consultant, Level III	<p><b>Education:</b> B.S. or B.A. Degree.</p> <p><b>Experience:</b> This position requires at least 8 years of experience in the appropriate area.</p> <p><b>Duties:</b> Provides task unique functional expertise necessary to interpret requirements, ensure responsiveness and achieve successful performance. May include subject matter and unique technical knowledge. Assists engineering, training, exercise, analytical, scientific, intelligence, construction, facilities and/or logistics staff with the analysis, evaluation, design, and implementation of systems, resources, methods, processes, analytical, or engineering related tasks.</p>
Functional Expert Consultant, Level II	<p><b>Education:</b> B.S. or B.A. Degree.</p> <p><b>Experience:</b> This position requires at least 5 years of experience in the appropriate area.</p> <p><b>Duties:</b> Provides task unique functional expertise necessary to interpret requirements, ensure responsiveness and achieve successful performance. May include subject matter and unique technical knowledge. Assists engineering, training, exercise, analytical, scientific, intelligence, construction, facilities and/or logistics staff with the analysis, evaluation, design, and implementation of systems, resources, methods, processes, analytical, or engineering related tasks.</p>
Logistics Analyst II	<p><b>Education:</b> B.A. or B.S. Degree.</p> <p><b>Experience:</b> Typically has 5 years experience providing logistic support for systems, processes, or organizations.</p> <p><b>Duties:</b> Assesses/represents user logistics requirements, to include preventive maintenance planning; document logistics plans, processes, procedures, analyses, and periodic reports; conducts field problem analysis, designs distribution plans, defines standard parts fielding packages; plans and executes Total Package Fielding to ensure logistics support accompanies systems as they are fielded; develops/monitors logistics budgets, implements logistics systems, applies generic logistics processes to specific applications; performs contingency planning, global resource identification for logistics sources/inventories/processes.</p>
